

# The Great Outdoor Curriculum

Ready for September 2021!

Redbridge Community School is delighted to announce a brand new, purpose built, assault course on the school site.

This much needed facility will complement our climbing wall, school camps in Year 7 and 8, and our endeavour pathways.

In addition, the course can be used for PE and the development of leadership skills, as each obstacle becomes its very own team building stance. Community use will also be a key aspect of this!

Very exciting times ahead!
